DISCOVER YOUR STEM EXPERIENCE

THE CHALLENGER LEARNING CENTER

This year, CTS is partnering with The Challenger Learning Center of Lake Erie West to create a one-of-a-kind STEM experience at the Grand Hotel.

As a leader in science, technology, engineering, and math (STEM) education; Challenger Center and its international network of more than 40 Challenger Learning Centers use space-themed simulated learning environments to engage students in dynamic, hands-on opportunities. These experiences strengthen knowledge in STEM subjects and inspire students to pursue careers in these important fields. Founded in 1986, the Challenger Learning Center program was created to honor the crew of shuttle flight STS-51L. Challenger Learning Center of Lake Erie West is part of a global network that reaches hundreds of thousands of students and tens of thousands of teachers each year.
